

Never look at work the same way again.

Curved monitor with ultra-wide 21:9 screen

The difference is easy to see. The Samsung S65UA series is a premium monitor that offers a graceful, gorgeous, curved design. And by maintaining a more consistent distance from the eye, the 1000R curved VA panel provides greater user comfort. Its ultra-wide screen provides more room to work, and the 3-sided bezel-less frame is ideal for multi-monitor setups. WQHD resolution, 4000:1 contrast ratio and wide viewing angles combine to give you a beautiful picture full of sharp detail, even when viewed at off-angles. Get greater collaboration, comfort and productivity with the Samsung S65UA series monitor.

Key Features

1000R curved screen and ultra-thin bezels

With a 1000mm radius, the distance from screen to eye is a more uniform distance, resulting in less eye fatigue when working long hours. The sleek design features a 3-sided bezel-less frame, which is ideal for seamless multi-monitor setups. And wide viewing angles ensure a sharp picture even when viewed at off-angles, aiding collaboration.

21:9 ultra-wide, WQHD resolution

The 21:9 ultra-wide aspect ratio gives more room to work, while WQHD resolution offers twice the pixels of Full HD. The picture is wide, sharp and detailed. And 4000:1 contrast ratio delivers richer images.

Versatile USB-C connectivity and Ethernet (LAN)

A single cable transmits digital display signal, USB data, power (up to 90W) and Ethernet (LAN). Connect any PC, tablet or mobile device with a USB-C port and you'll have an instant clean and clutter-free workstation. Your PC or mobile device will be charged, and up to three peripherals can be plugged directly into the monitor.

Split screen (PBP) and Picture in Picture (PIP)

Connect two separate sources to the S65UA series monitor and view them simultaneously. Code in one window and see the results in the other. Included software makes window management easy.

AMD FreeSync, 100Hz, 5ms

AMD FreeSync technology works with a 100Hz refresh rate and 5ms response time to smooth, crisp, blur-free and ghost-free images. There's no juddering and less lag when watching video or other fast-changing content.

Fully adjustable stand and VESA compatible

The monitor swivels, tilts, pivots and is height-adjustable, for greater user comfort. And since the monitor is VESA compatible, installation on a wall or separate mounting arm is easy.

Easy on the eyes

Eye Saver Mode lowers blue light levels, for reduced eye strain during long work hours. Flicker-free technology adds further viewing comfort by eliminating flickering at all levels of brightness.

Samsung S65UA Series Desktop Monitor

		S34A654UXN
Display	Screen Size	34"
