

Document Capture Solutions for Workgroups and Individuals

Offering intuitive operation and design, fast scan speeds and exceptional reliability, Brother mobile, compact, and desktop scanners are ideal for meeting diverse document capture needs.

Whether a business requires a back-end capture solution, or more complex devices with networking, cloud and file-sharing capabilities, Brother offers the right solutions for specific workflow demands while helping to ensure document security.

Brother Workhorse Series scanners are award-winning, standalone capture solutions designed for organizations with medium to large-scanning volumes. They provide the flexibility to easily digitize, search, and retrieve files, share or archive single and double-sided documents, business and plastic id cards, receipts, photos, and more, in color or black and white.
