

ChromeOS Flex + Chrome Enterprise Upgrade trial

Modernize a fleet of existing PCs and Macs with ChromeOS Flex at no cost and unlock the built-in business capabilities of ChromeOS with a free 30-day trial of Chrome Enterprise Upgrade.

With ChromeOS Flex, enjoy:

No-cost upgrade for existing hardware

- Refresh your older devices with a modern OS and extend their lifespan while lowering total cost of ownership

An eco-friendly solution

- Reduce e-waste by deploying a sustainable solution that uses 19%* less energy on average

Proactive security

- Blocked executables and sandboxing technology eliminates the need for antivirus software
- IT controls prevent data loss on lost or stolen devices

Fast deployment and easy management

- Deploy ChromeOS Flex across your fleet via USB or network deployment and cloud profiles sync settings almost instantly
- Use the Google Admin console to manage updates and configure device policies remotely

Fast, modern work experience from anywhere

- Devices boot quickly, don't slow down over time, and update in the background every four weeks
- Experience fast access to VDI and web apps with an intuitive, clutter-free, and reliable experience

With Chrome Enterprise Upgrade, unlock:

Scalable, cloud-based management

- Manage devices remotely in the Google Admin console, use third-party UEM solutions, or the Chrome Policy API to manage at scale

24/7 support from Google

- 24/7 IT admin support included

Advanced security

- Remotely wipe or disable devices, force re-enrollment, and enable sign-in restrictions to ensure data stays in the right hands

Manage updates at your own pace

- Choose to roll out feature updates gradually or automatically with the added option for long-term support channel

Reporting and insights

- Pull insightful reports including 7-day active metrics, OS versions, and crash reports

Granular controls

- Enable single sign-on, identity-free login, and configure printer and Wi-Fi settings
