HYBRID CONFERENCING MADE EASY WITH LEGRAND | AV

Your clients have one big goal this year- make hybrid work. Discover Legrand | AV's transformative conferencing solutions that work with all your favorite brands to create complete solutions and happy customers.

C2G.
CONNECTIVITY

BYOD Ready

4K HDMI Adapter Rings are the perfect addition to conference rooms and huddle spaces to ensure anyone can connect. Available in three different configurations for ultimate flexibility in any space.

Deliver 4K Further

HDBasetT extends 4K video and audio, data, power and control in conference rooms beyond the standard cabling length limitations.

Hoteling Made Easy

USB C Docking Stations connect to multiple displays, multiple peripherals, transmit data, and provide power delivery all through a single USB-C port of a computer.

CHIEF°
MOUNTS

Add Displays Anywhere

Fusion Wall Mounts are designed with installer feedback for superior speed and usability— Fusion Fixed and Tilt mounts bring stability, less hardware, fast installation, improved cable management and more.

Mounts & Storage for Rapid Rollouts

Tempo utilizes the floor instead of the wall to support displays—eliminating the need for wall inspections and creating time and cost savings across large rollouts while maintaining a low profile.

Get Perfect Camera Placement

Mount Vaddio cameras to compatible Chief mounting systems like Fusion, Thinstall and Q-Latch for an ultimate video conferencing AV solution.

DA-LITE.
SCREENS

Eliminate Black Drop
Tensioned Advantage® Screens with SightLine give the impression of a floating screen and create usable space above the viewing area to preserve architectural interest. Also available on Advantage Screens.

Completely Wire Free For Quick Installs
Tensioned Designed Contour with Agility™ Battery Motor provides all the benefits of an electric screen but the flexibility of wire-free installation.
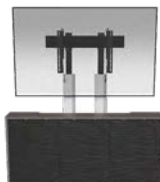

Screens That Look Like Displays
Designed to look like a large flat panel, the **UTB Contour** has an ultra-thing bezel frame and low profile - perfect for conferencing applications.

MIDDLE ATLANTIC.
POWER AND STORAGE

Remotely Manage Power
The Select Series PDU with Racklink provides intelligent power to AV systems in a compact form factor that can be mounted behind displays or inside furniture.

On-Wall Conferencing Storage
The Pre-Configured C3 Credenza is a quick-ship modern conference room wall-mounted, low-profile credenza that is built to properly support AV/IT equipment in the conference room or board room.

Portable Rack Solution
The RFR Series mobile rack is built for AV systems with an elegant design that fits in any corporate space. Available in three finishes.

VADDIO.
CAMERAS

AV on the IP Network
EasyIP is a cost-efficient solution that simplifies hybrid conferencing by moving video and audio onto the network.

Kitted Conferencing Solutions
ConferenceSHOT AV integrates a high definition PTZ camera and audio conferencing mixer into a single USB 3.0 device, so you can easily connect up to two microphones and an external speaker directly to the camera.

Seamless Auto-framing Experience
IntelliSHOT and **ConferenceSHOT ePTZ** ensure remote participants never have to look at tiny people gathered around a table. Get high res, autotracking that frames the speaker to give everyone the best seat in the house.
