# Find Your Perfect GPU

## FOR ALL YOUR MISSION-CRITICAL NEEDS

PNY.

Which is the right professional NVIDIA RTX or Quadro GPU for your application or workflow?

PNY offers a suite of NVIDIA professional solutions that enable designers, manufacturers, scientists and researchers to do their work smarter, faster, with greater reliability and energy efficiency.

| DOES YOUR WORK INVOLVE DESIGN, RENDERING, OR VISUALIZATION, DATA SCIENCES, AI, OR HEAVY COMPUTATION? **IS HARDWARE RELIABILITY IMPORTANT?** | **YES** | NVIDIA® RTX™ AND NVIDIA QUADRO® PROFESSIONAL GPUS ARE RECOMMENDED **ARE YOU DEPLOYING PRO SOLUTIONS IN:** |

DESKTOP SYSTEMS	**EMBEDDED SOLUTION**	**CAE, HPC, OR OTHER USE CASE REQUIRING FP64 OR FP32**	**MULTI-GPU RACKMOUNT SYSTEMS FOR RENDERING, VIRTUALIZATION, OR VIDEO ENCODING**
RECOMMEND **NVIDIA RTX OR NVIDIA QUADRO PROFESSIONAL GPUs** • All cards are tested and certified on 100+ professional applications. • For real-time rendering or AI enhanced apps choose NVIDIA RTX or Quadro RTX • For NVIDIA-Powered Data Science Workstations dual NVIDIA RTX A6000 or Quadro RTX 8000 boards with NVLink are preferred	**RECOMMEND** **NVIDIA QUADRO MXM** • Get standout Quadro performance and features in a small, low power, embedded form factor • Ideal for compact, ruggedized, or specialized use (e.g. medical imaging, video or signal processing) • Pre-sales technical consulting and support available	**RECOMMEND** **FP64 HW Required** • NVIDIA Quadro GV100 supports FP64 in hardware **FP32 HW Required** • NVIDIA RTX or Quadro RTX both offer tremendous FP32 performance	**RECOMMEND** **NVIDIA RTX A6000 OR QUADRO RTX 8000 OR 6000** • The NVIDIA EGX Platform for professional visualization combines high-end NVIDIA RTX or Quadro RTX GPUs with NVIDIA virtual GPU (vGPU) software to bring accelerated graphics and compute power to professional users. • NVIDIA RTX or Quadro RTX series boards offer HEVC 8K decode and support for H.264 8K YUV444 encode

Get the NVIDIA RTX Professional Advantage

- Designed, Built, and Tested by NVIDIA
- Significant professional application performance improvement
- Software certification and support
- Dependable availability, now and going forward
- Consistent pricing you can rely on
- Long product lifecycles for enterprise deployment
- Unified Driver Architecture lowers TCO
- Pre-and post-sales support
