

Print management made easy

HP Managed Print Services – pMPS

Transform your business

Streamline print operations and transform your business with our simple, secure, and flexible managed print service¹.

Life is full of distractions, but printing shouldn't be one of them. HP Managed Print Services takes on the burden of print for you, keeping your business running smoothly and freeing you and your teams to focus on strategic initiatives that drive the business forward.

Enjoy enhanced productivity, robust security, and flexibility to suit your needs with HP Managed Print Services.

SIMPLIFY PRINT MANAGEMENT

Count on HP Managed Print Services to handle print management for you with proactive supplies replenishment² and expert support³ just when you need it.

BOLSTER SECURITY

Defend your network and boost cyber resilience with security features embedded into devices as standard, making them the world's most secure printers⁴.

EMBRACE FLEXIBILITY

Tailor your contract to suit your specific business needs with your choice of contract length (1-5 years) and billing model⁵, as well as multi-country coverage⁶. We ensure an easy setup, operational within days⁷.

How HP Managed Print Services works for you

- Have ink and toner proactively delivered to you before you run out²
- Choose the contract length that works for you, with 1-5-year terms available
- Get one consolidated bill for all your devices and choose from a range of available billing models⁵
- Minimize downtime with remote and onsite support³
- Access device insights online to track consumables and expenditure²
- Software solutions for print management and enhanced security⁸

1. Compatible HP Hardware sold separately.
2. Device Connect Agent (DCA) is required to enable the connection to the HP network for monitoring devices and proactively delivering supplies.
3. Service availability and response times vary by location, next business day is the default option. HP will dispatch an HP-authorized technician onsite only if the problem has not been resolved remotely.
4. HP's most advanced embedded security features are available on HP Managed and Enterprise devices with HP FutureSmart firmware 4.5 or above. Claim based on HP review of published features as of February 2023 of competitive in-class printers. Only HP offers a combination of security features to automatically detect, stop, and recover from attacks with a self-healing reboot, in alignment with NIST SP 800-193 guidelines for device cyber resiliency.
5. Available billing models vary by country.
6. Availability varies by country / region, tax issues to be considered.
7. Depends on hardware availability and activation of the service.
8. Solution availability varies by country.

HP Services are governed by the applicable HP terms and conditions of service provided or indicated to Customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP Product.
