

The MC3400/MC3450

Create the perfect fit for full-shift productivity

The next generation in the highly successful MC3000 Series offers all the latest mobility features and options you need to maximize worker productivity, workflow efficiency and the return on your device investment — and meet the needs of today's 24x7 on-demand economy in your warehouses, manufacturing plants, ports, yards and retail backrooms.

2 models

Give your team fit-for-purpose ergonomics created by Zebra's award winning design team

Gun Style

- Lightweight comfort — optimized for a mix of scanning and manual data entry
- Double finger trigger reduces finger fatigue for the most scan intensive tasks

Straight Shooter (Brick)

- Delivers comfort every minute of scan-intensive shifts
- A secure grip for any size hand with two concave finger perches
- Perfectly balanced weight reduces wrist strain, ensuring optimal comfort
- Dedicated design eliminates the need to buy and manage a separate grip accessory

3 keypad options

Choose the keypad that best suits the type of data your workers need to capture

Alpha-Numeric (47 key)

Function Numeric (38 key)

Numeric (29 key)

Keyboard design improvements

Keyboard is 12% larger:
Keys are larger
More space between the keys
...enabling **faster, easier** and **more accurate** data entry — even with gloves

Comprehensive wireless connectivity

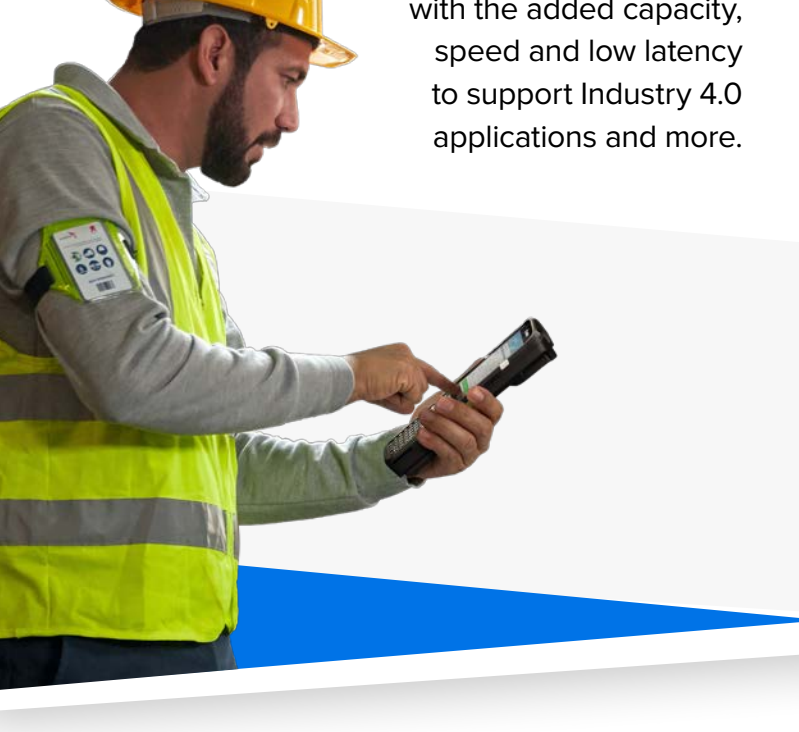

Give your workers advanced wireless connections no matter where they are — and no matter which model you choose

MC3400

Wi-Fi 6E

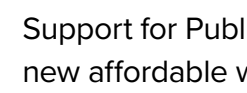

Get the fastest most reliable Wi-Fi for inside the four walls. Wi-Fi 6E helps future proof your network with the added capacity, speed and low latency to support Industry 4.0 applications and more.

MC3450

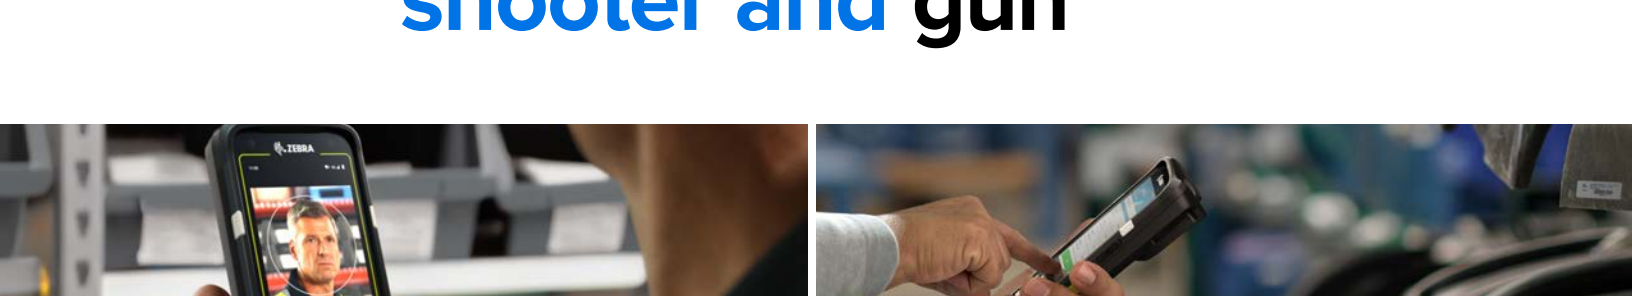

Wi-Fi 6E, 5G, Private 5G

Support for Public and Private 5G enables new affordable wireless networking options in expansive outdoor and indoor environments. Enjoy greater coverage, lower installation costs, seamless roaming, enhanced security and more consistent outdoor performance.

Cameras NOW available on straight shooter and gun

5MP Front Facing camera

- Only device in its class with a front-facing camera
- Enable biometric facial recognition for fast, accurate and secure device access
- Enable video calls that improve collaboration and the speed of issue resolution

13MP Rear Facing camera

- Capture high resolution photos for proof of condition
- Capture documents, such as a bill of lading
- Get the best image possible with embedded smart software, which automatically rotates, brightens, crops, de-skews, removes shadows and ensures text is legible and searchable — all with one press of a button

4

scan engine options

Choose the right scanner for the job — and all scanners offer Zebra's industry-leading scanning performance, with split-second first-time capture of virtually every barcode in practically any condition.

SE4710 1D/2D scan engine

Capture standards, photos and documents indoors; rapid-fire standard range scanning with point-and-shoot simplicity up to 24 in. (60cm) away; LED aimer

SE4770 1D/2D scan engine

Capture barcodes, photos and documents indoors and outdoors; an expanded working range up to 36 in. (91cm); enhanced motion tolerance for faster scanning; red laser aimer

SE55 1D/2D Advanced Range scan engine with IntelliFocus™ technology

More flexible scan range — from in hand to as far as 40 ft. (12.2m) away; green laser aimer

SE58 1D/2D Extended Range scan engine with IntelliFocus™ technology

Maximum scan range from in hand to more than 100 ft. (30.5m) away, ideal for scanning in ports and yards; green laser aimer

3 performance levels

Why pay for performance specs you don't need?

With tiered memory configurations, you can tailor a solution that's just right for your applications and budget.

Standard

4 GB RAM
64 GB Flash
Upgradeable to Android 15

Expanded

6 GB RAM
64 GB Flash
Upgradeable to Android 18¹

Full

6 GB RAM
128 GB Flash
Upgradeable to Android 18¹

Many software tools

Zebra DNA and other innovative Zebra solutions empower your workers with more productivity enhancing capabilities

Just a few Zebra-only tools include:

Identity Guardian

Enable secure personalized access via facial biometrics and Single Sign-On

Device Tracker

Track and find missing devices — even if they're powered off or the battery is depleted²

OCR Wedge

Instantly capture shipping container or tire ID numbers

Workcloud Task Management

Prioritize and send tasks to the right workers in real time

Workcloud Communication

Enable push-to-talk communications, secure text messages and more
