

STREAMLINE DEVICE DEPLOYMENT FOR ENHANCED USER EXPERIENCE

Modern work scenarios like the need for hybrid workspaces, increased cyberthreats, and the need for improved user experience, efficiency, and cost effectiveness are forcing organizations to implement a streamlined zero-touch approach to device deployment and management.

SECURITY IS A PRIORITY

70%

of respondents found their organizations took more than seven days to detect and recover from a security breach¹

89%

of web application breaches involved some form of credential abuse²

95%

of cyber security breaches are caused by human error⁷

MODERN OS FUNCTIONALITY CAN HELP

3.1x

reduction in firmware attacks with Windows 11 Pro device out-of-the-box protections⁵

2.8x

fewer instances of identity theft with Windows 11 Pro device out-of-the-box protections⁵

20%

reduction in risk of a successful security attack with Windows 11 Pro devices¹

99.9%

of identity attacks can be thwarted by turning on multi-factor authentication³

RETURN ON INVESTMENT

Windows 11 Pro device users realized a **25% decrease** in time and cost of deployment.¹

With **99.7% app compatibility and hardware integration**, organizations can easily deliver a productivity upgrade.⁶

80% reduction in IT department tickets with Windows 11 Pro device security features.¹

We expect a **global shortfall of 4.2 million IT workers** by 2030. Attract top talent by removing the tedious challenges of manual configuration and provisioning, with a streamlined deployment.⁴

END-USER SATISFACTION INCREASES PRODUCTIVITY AND PERFORMANCE

66% of business and technology professionals said enabling a hybrid or “anywhere” workplace was a priority.¹

IT teams see a **20% increase** in productivity with zero-touch security capabilities.¹

End users redirected **50% of time saved** with Windows 11 Pro device deployment toward productive work.¹

50% of the remaining recouped time culminates in an improved employee experience.¹
