CROWDSTRIKE

FALCON ENDPOINT PROTECTION PREMIUM

Take breach prevention to the next level

STOP BREACHES WITH FULL ENDPOINT PROTECTION AND VISIBILITY INTO ACCOUNTS, ASSETS AND APP USAGE

CrowdStrike Falcon® Endpoint Protection Premium stops breaches by combining next-generation antivirus (NGAV), endpoint detection and response (EDR), managed threat hunting, integrated threat intelligence and IT hygiene. In addition, Falcon Premium allows you to prepare before an attack occurs by adding the visibility you need to reveal areas of exposure — it identifies unprotected and rogue systems and monitors what applications and user accounts are being used in your environment.

KEY PRODUCT CAPABILITIES

AI-POWERED NGAV

- Protects against the entire spectrum without requiring daily updates
- Combines the best prevention technologies — machine learning, AI, indicators of attack (IOAs), exploit blocking and more — to stop ransomware and malware-free and fileless attacks
- Covers the gaps left by legacy AV and fully protects endpoints online and offline

INTELLIGENT EDR

- Prevents silent failure by capturing raw events for automatic detection of malicious activity, providing unparalleled visibility, proactive threat hunting and forensic investigation
- Unravels an entire attack in the easy-to-use CrowdScore™ Incident Workbench, enriched with context and threat intelligence data
- Provides powerful response action to contain, investigate and remediate compromised systems

24/7 MANAGED THREAT HUNTING

- An elite team of security experts proactively hunts, investigates and advises on activity in your environment to ensure threats and high-priority alerts don't get missed
- Alert prioritization uniquely pinpoints the most urgent threats in your environment and resolves false positives
- Guided response provides clarity on an attack and guidance on what to do next

KEY BENEFITS

Stops breaches and simplifies endpoint protection

Provides unparalleled real-time and historical visibility across endpoint events and activities

Accelerates investigation and remediation and ensures stealthy attacks don't go undetected 24/7

Lets you see the big picture with CrowdScore, your enterprise threat score

Reveals areas of exposure and elevates your security expertise and capabilities

IT HYGIENE

- Detailed visibility over applications, assets and user accounts
- Identifies rogue computers and unprotected systems
- Sees who and what is on your network at all times

DEVICE CONTROL

- Provides detailed visibility on USB device usage
- Enables granular policy enforcement to ensure control over USB devices used in the environment

FIREWALL MANAGEMENT

- Makes it easy to create, manage and enforce policies
- Defends against network threats and provides instant visibility to enhance protection and inform action

INTEGRATED THREAT INTELLIGENCE

- Enables you to fully understand the threats in your environment and easily prioritize responses with threat severity assessment
- Eliminates guesswork so you can respond to threats decisively
- Automatically determines the scope and impact of threats found in your environment
- Provides a broader set of indicators of compromise (IOCs) for faster, better protection

CLOUD-NATIVE PLATFORM

Reduced cost and complexity: Eliminates the need for constant signature updates, on-premises management infrastructure and complex integrations

Works on Day One: Deploys and is operational in minutes without requiring reboots, fine-tuning, baselining or complex configuration

Zero impact on the endpoint, including installation and day-to-day operations, even when analyzing, searching and investigating

ABOUT CROWDSTRIKE

CrowdStrike® Inc. (Nasdaq: CRWD), a global cybersecurity leader, is redefining security for the cloud era with an endpoint protection platform built from the ground up to stop breaches. The CrowdStrike Falcon® platform's single lightweight-agent architecture leverages cloud-scale artificial intelligence (AI) and offers real-time protection and visibility across the enterprise, preventing attacks on endpoints on or off the network.
