What Type of Laptop User Are You?

BEGIN!

Where does the majority of your computing happen?

At Home

Do you use your laptop for gaming?

Always — **Sometimes** — **Never**

HIGH-SCORE HERO
You're all about having fun with friends. So whether you're hopping into an online game or just hanging out, you want a laptop that puts you right into the action.

MSI Stealth

Are you a student?

ZERO LATENCY COMPETITOR
You're in the top echelon of gamers, and to stay competitive, you've got to have the fastest CPU, the latest GPU, and enough RAM to make people ask, "…that fits in a laptop?"

Lenovo Legion

Yes

HEAD OF THE CLASS
Whether you're gearing up for undergrad or defending your dissertation, your laptop has to deliver valedictorian performance on a value budget.

HP Chromebook

No

Do you have a dedicated home office?

Yes — **No**

CREATURE OF COMFORT
Your home office is the envy of the neighborhood. You've got to have support for dual monitors, a docking station, and the latest gadgets.

Dell Latitude 7430

WORKSPACE ACROBAT
Business happens everywhere in your house. Whether you're most productive on the couch, at the kitchen table, or in the backyard, your notebook has to be flexible enough to support your workflow.

Microsoft Surface

At Work

Which feature is more important to you?

Mobility — **Performance**

THE CREATOR
As a creative pro, you know that inspiration doesn't wait. Your laptop has to keep up with the latest performance-hungry apps and jaw-dropping file sizes.

Apple MacBook

Where does your day take you?

Around the building — **Around the country**

CAMPUS CRUISER
Your busy schedule has you on the go all day, moving from floor to floor and meeting room to room. Whatever the workday brings, you need a laptop that keeps you agile, mobile, and ready for anything.

Lenovo 14w

ROAD WARRIOR
You epitomize the mobile workforce. You're in a new city each week, visiting client offices, attending trade shows, and scoping out new locations. An ultraportable device is a must have.

HP Elite Dragonfly

Do you push your system to its performance limits?

Yes — **No**

THE NUMBER CRUNCHER
You eat advanced computations for breakfast. Your spreadsheets are a thing of beauty and databases everywhere fear you. You need a mobile workstation that's as capable as you are.

HP ZBook

Do you work with CAD, 3D models, or graphics-intensive applications?

Yes — **No**

Are hardhats, hikes, or the elements a regular feature of your workspace?

No — **Yes**

SITE VISIT VIRTUOSO
Whether you're on the factory floor, out in the field, or on location at the latest construction project, the world is your office. You need a laptop designed for durability and resiliency.

Panasonic Toughbook

THE OFFICE ALL-STAR
You're the first one in the office and the last one out, and your desk is home base. You need a feature-rich, robust system that prioritizes productivity over mobility.

Lenovo ThinkPad Z16

Do you need additional help finding the right laptop to fit your needs?
