

JAMF SAFE INTERNET

Safe, private connections on Chromebook

Powered by Jamf's content filtering and network threat protection engine, Jamf Safe Internet is designed to help schools protect minors from harmful content.

Students spend nearly twice as much time online than ever before, presenting a growing need for digital safety to eliminate cyberattacks and prevent students from accessing unsafe content. Using Jamf security tools, Jamf Safe Internet is a purpose-built, education, content filtering solution that ensures students can navigate the internet on their Chromebook without reserve.

Content Filtering Database

Comprehensive content filtering optimized for education and integrated with Google Workspace for Education for simple, powerful student and user protection. Jamf Safe Internet is designed to help schools protect minors from harmful content on the internet and enforce acceptable-use policies without sacrificing the learning experience.

Using lightweight, performant domain name system (DNS) technology Jamf Safe Internet allows admins to create and customize the content filter results that fit their school needs, without invading privacy.

Implement YouTube Restricted Mode

Implement YouTube's Restricted Mode services to hide potentially mature content from YouTube search results, comments and embedded YouTube videos.

Easy-to-build Reporting

Education professionals know that threat management doesn't stop with the protective tooling, you also want to report on and understand how effective your policies are. Never miss a beat with network statistics available in Jamf Safe Internet.

Enforce Google SafeSearch

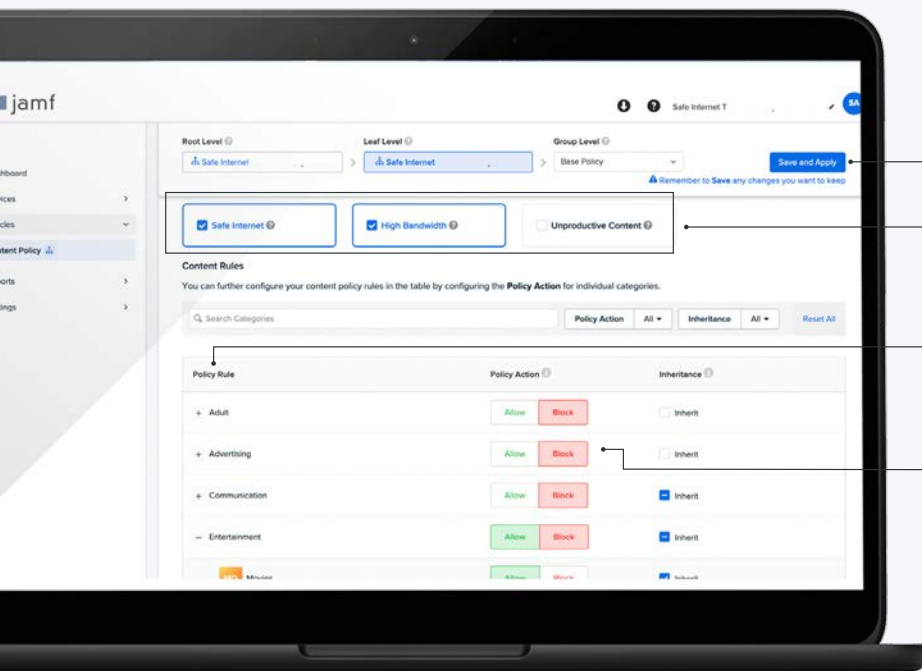

Jamf Safe Internet enforces Google SafeSearch to help hide explicit content from Google search results for a safer learning environment.

Jamf and Google for Education — together

Jamf Safe Internet is easily deployed via Google Admin Console. When Jamf is enabled on a device, students login to a Chromebook with their [Google Workspace for Education](#) account and immediately have group or age group specific browsing policies applied.

Content controls customized

Scope the content filtering policies fit for your needs. Or, simply choose a Safe Internet preset and get started!

Simple, Save and Apply updates to your policies

Pre-defined rules to get your content filtering policy started

Wide set of block categories to prevent content

Simple click-to-toggle Allow/Block functionality

See how [Jamf Safe Internet](#) works with [Google for Education](#) to ensure security and digital safety remain core to the educational experience.
