

Reinvent document workflows with seamless integrations.

Smart hybrid work requires collaboration to flow from anywhere. Adobe Acrobat Pro and Adobe Acrobat Sign put essential PDF and e-signature tools inside Microsoft 365 apps.

With Acrobat Pro:

- ✓ Let users simultaneously view, comment, and annotate high-fidelity PDFs.
- ✓ Avoid lengthy email chains—collect feedback in one shared PDF directly in Teams.
- ✓ Complete high-value PDF actions without leaving the app—convert, create, edit, export, and secure PDFs.

With Acrobat Sign:

- ✓ Close deals faster with the only e-signature solution that lets you send contracts and forms from within Teams.
- ✓ Keep an eye on key documents with real-time tracking and detailed audit trail. You can even send reminders for overdue approvals.

Get more done inside Word, Excel, and PowerPoint

With Acrobat Pro:

- Access, create, edit, and review high-quality PDFs without switching apps.
- Export PDFs in editable Word, Excel, or PowerPoint files while preserving fonts, formatting, and layouts.

With Acrobat Sign:

- Create electronic contracts from scratch, send for e-signature and track status from Word or PowerPoint.

Work smarter in Microsoft SharePoint

- **With Acrobat Pro:** Access, create, edit, save, review, organize, combine, and store documents directly in SharePoint.

- **With Acrobat Sign:** request signatures, create fill & sign forms, and map data collected from web forms back into SharePoint lists.

✓ Add value to your tech investment:

Maximize the value of current productivity solutions with integrations that cover tasks from end to end.

✓ Improve CX and EX:

Let clients and employees close deals and review contracts without leaving their Teams call.

Improve workflows for all departments

- HR:**
