Bring Teams Together

Samsung and Logitech: Interactive Touch for Microsoft Teams Rooms

No meeting room is complete without a Samsung Interactive Display and Logitech video conferencing solution. With plug-and-play compatibility and one-touch meeting controls, Logitech conference cameras are certified to run Microsoft Teams meetings. Businesses can be sure to find the optimal setup for any meeting room regardless of the size, layout or budget. With a wide range of display sizes to choose from Samsung, combined with certified-Microsoft Teams Rooms kits from Logitech, these meeting room solutions are easy to deploy and use. The right tools help save valuable time and make teamwork and collaboration seamless.
