

# Coronis OneLook

The ultimate diagnostic display solution for breast imaging and general radiology

## One look is all it takes to change the lives of millions

- See complete images in one glance with 32MP resolution and large 33" screen
- High medical contrast and detail with 1,200 cd/m<sup>2</sup> brightness, 1300:1 contrast ratio and RapidFrame technology
- Clear & consistent colors, thanks to extra wide color gamut and SteadyColor technology
- Personalize your workflow with customizable on-screen touch buttons
- Centralized QA & compliance management with QAWeb Enterprise

**More detail than you've ever imagined.** That's what you get with our Coronis OneLook display solution for breast imaging and general radiology. It's the first display that allows you to **see complete medical images** without needing to zoom or pan!

Review multiple studies side by side and enjoy the clarity of **extreme medical contrast and an extra wide color range**. Included Barco-patented technologies developed for radiology guarantee consistent grayscales and colors, as well as crisp images – even in **moving and 3D studies**.

Coronis OneLook includes **customizable on-screen touch buttons**, so you can launch your go-to applications without any clicks. Finally, the QAWeb Enterprise platform allows **centralized QA & compliance management**.
