

MICROSOFT COPILOT

A Whole New Way of Working

Microsoft Copilot is an AI-powered productivity tool that coordinates large language models (LLMs), content in Microsoft Graph, and the Microsoft 365 apps that you use every day—Word, Excel, PowerPoint, Outlook, Teams, and others—to assist you in virtually every aspect of your workday. It's designed to help simplify daily work tasks, boost productivity, and enhance creativity. With Copilot's ability to use deep learning through artificial intelligence (AI) algorithms and vast data sets, users can save time, streamline, and automate their IT processes and increase productivity in real-time.

Unleash Productivity and Creativity with Microsoft 365 Copilot

Microsoft 365 Copilot is the integration of the Copilot AI assistant into the Microsoft 365 productivity suite, including Teams, Word, Outlook, Excel, and PowerPoint. Microsoft 365 Copilot doesn't just offer a better way of doing the same things. It delivers an entirely new way of working, with the ability to be more creative in Word, more analytical in Excel, more expressive in PowerPoint, more productive in Outlook, and more collaborative in Teams. Boost creativity and streamline your workday with AI assistance in the Microsoft 365 apps your organization uses every day.

Discover the Power of AI with Copilot in Windows 11

Kickstart your Windows 11 experience with AI-powered features that enhance creativity and productivity. New for Windows 11, Copilot uses AI-powered intelligence to help you get answers and inspiration from across the Web, supports creativity and collaboration, and helps you focus on the tasks at hand. From adjusting your PC's settings to summarizing content in Microsoft 365 apps, Copilot saves you time and helps you work more efficiently across the applications you use regularly.

Copilot with Bing Chat: AI-powered Chat for Work

Get answers and inspiration from across the Web, streamline workflows, and enable more efficient communication and collaboration among team members using AI-powered Copilot with Bing Chat. Integrated into the Microsoft Edge browser, Copilot with Bing Chat is easily accessible and can be used alongside other productivity tools, such as Microsoft 365,

to research insights, analyze data, or find inspiration with greater efficiency. Available at no additional cost for select Microsoft 365 plans, users can leverage the power of AI in Copilot with Bing Chat to work more effectively and securely with commercial data protection.
