

# Microsoft 365 Security Assessment

Microsoft 365 (M365) is a subscription service that improves integration and security between Microsoft products. M365 comes bundled as a suite of products and includes Office 365, Windows 10 Pro, and Enterprise Mobility + Security (EMS). With M365, Microsoft delivers cloud services that can scale, as well as integrate with advanced security controls and compliance capabilities. The Microsoft 365 suite of security products gives you comprehensive solutions, intuitive management, and identity-driven security to help you stay productive and secure on any device.

With Microsoft 365's native Security Center toolset, Connection's Microsoft 365 Security Assessment will address:

- The current state of your organization's Microsoft security posture
- Microsoft 365 Security Controls
- Priorities and recommendations to improve your device security
